FULL STACK DEVELOPER WITH 2.9 YEARS
DEEPIKA G V

Email: **gvdeepika7788@gmail.com**
Cellphone: 8971628553

INTRODUCTION

Full Stack Web Developer with 2.9 years of hands-on experience in Front-end and Back-end Development. Skilled with various web development frameworks and libraries

SKILLS

- Proficient in **HTML5**, **CSS3** and **JavaScript** for frontend development.
- Strong understanding of JavaScript libraries like **jQuery**.
- Familiar with **Bootstrap** framework for designing beautiful websites.
- Expert in making UI designs using JavaScript library **React.js**.
- Having hands on knowledge React components line **redux** and **hooks**
- Expert in backend development with Node.js Express.js and other **npm** packages.
- Also familiar with **MongoDB** database and its npm package **Mongoose**.
- Also know how to work with source control management like **Git** and its version control.

EXPERIENCE

Software AG from Sept 2021 to till date

Environment: HTML5, CSS3, jQuery, Handlebars, AJAX, Responsive Web Design, Jasmine, Grails, Node.js, React.js, jQuery UI, JSON,, Flax, JavaScript, JSP, SASS and Windows.

Project: provide software for white label, mobile cloud, RCS messaging and digital solutions for Service and It provides video traffic management and 5G mobile products

Enterprise Integration Platform

that facilitates seamless communication and data exchange between various enterprise systems. As a Developer with expertise Node js and Express js , JavaScript will play a key role

in building an Enterprise Integration Platform. The objective of this project is to create a robust and scalable platform

Roles & Responsibilities

- Involved in the Requirement gathering phase to gather the requirements from the business users and dealing with the UX team to continuously accommodate changing user requirements.

- Developed the front end of the application using **HTML5**, **CSS3**, SASS, **JavaScript**

- Applied advanced HTML, JavaScript, and CSS to deliver cutting-edge user interfaces and components.

- Identified web-based user interaction and developed a highly-responsive user interface component via **React** concepts.

- Implemented React Principles in building Front End Screens including **React Router**, Context API, **Redux**, Forms

- Translated designs & wireframes into high-quality code and wrote application interface code via Javascript following **React js** workflow

- Created interactive websites and website features using **JavaScript** and **jQuery**/ jQuery UI.

- Used **Node.js** for developing single page web applications.

- Wrote Page level code using JavaScript with Angular.js framework along with JQUERY and other JavaScript libraries.

- Creating interactive prototypes using HTML5, CSS3, JavaScript front end code from a combination of wireframes, visual designs, and design standards.

- Utilized Adobe Fireworks, Adobe Photoshop, Adobe Dreamweaver, and Illustrator for the front-end development such as graphics and multimedia.

- Debug the application using Firebug to traverse the document and manipulate the Nodes using **DOM** and DOM Functions.

- Converted existing websites to Responsive websites.

- Used Jasmine to perform unit testing of custom filters, custom directives, and various parts of AngularJSapplication.

- Designed the start page layout with the new UI's in JSPs as per the project requirements using JavaBeans.

- Build service-based architectures and platforms using core JAVA, Servlets, JSP and Web - Services.

- Responsible for creating the screens with table-less designs meeting W3C standards. Worked with Node.js to give a structure with rich API over a RESTful JSON interface.

- Wrote application-level code to interact with the backend databases JQUERY, AJAX and JSON.

- Implemented Grails Services and controllers to perform actions.

- Used Dreamweaver, Photoshop, Flex for implementing applications and designing graphics and images.

- Applied jQuery scripts for basic animation and end user screen customization purposes.

- Involved in rendering custom HTML tags using React.js.

- Worked upon the dashboard for the project which contained a variety of charts and drag gable components using JQUERY UI Library.

- Used AJAX for asynchronous exchanging small amounts of data with the server behind the scenes and updating the JSP page.

- Used AJAX and JSON to make asynchronous calls to the project server to fetch data on the fly.

- Developed and deployed Action Classes and JSP for Dynamic HTML generation.

- Generated new and edited existing design with CSS to accommodate recent changes in design and logic.

- Created web pages which are informative and yet very neat and interesting to look at.

ACADEMIC CREDENTIALS

- BE - Kalpataru Institute of Technology, Tiptur

- PUC -Govt. PU College for Boys, Tiptur

- SSLC -C.K.S Girls High School, Hassan
