## Projects

### Personal-Portfolio-Website-Vivek

- I build a Personal Portfolio Website and added all the details about me here.
- Tech: React.Js, Javascript, CSS3, HTML5
- <https://portfolio-vivek-byvivek.netlify.app/>

### ATM Functionality Webapp

- I build a ATM Functionality WebApp website with Local Storage and we added all the ATM related functionality in this Website.
- Tech: React.Js, Javascript, CSS3, HTML5

### E-Commerce-Website

- I build a E-Commerce web application named as nest webapp. This include creating a secure account registration process with email, phone number and security code validation, implementing a robust login system. Here also we can add cart in your wishlist and can buy a product with tracking system of your product, it demonstrate my broad skill set and commitment to delivering comprehensive solutions.
- Tech: React.Js, Javascript, CSS3, HTML5, Bootstrap.

### Doctor-Appointment-Booking-Webapp

- Developed a frontend web application that allows users to book, manage, and cancel doctor appointments online. The application provides a user-friendly interface for patients to search for doctors, view available time slots, and receive confirmation notifications and for backend we used firebase.
- Tech: React.Js, Javascript, CSS3, HTML5, Tailwind CSS, Context-API, Firebase, Paymentgateway etc.

### E-Store web app e-commerce website with firebase

- Use a front-end framework like React.js, to build the user interface. Create components for product listings, shopping carts, user profiles, and checkout pages
- Tech: React.Js, Javascript, Firebase, redux-toolkit, Context-API, Tailwind CSS, etc.

### Weather-App

- I build a Weather App website, In this app we fetch API server for give weather data of world. In this App we give any city name in search bar its gives us the current weather Temperature of this city.
- Tech: React.Js, Javascript, CSS3, HTML5

### Food-Delivery E-commerce Web App

- I developed a Food Delivery Website with the categories of different types foods and i also made food bill payment system, cart product features and user login form in this website. For backend we uses firebase url to save data in the list.
- Tech: React.Js, Javascript, CSS3, HTML5, Context-API, firebase

### ToDoApp-with-Firebase

- I build a ToDoApp by using firebase for backend data. In this todoapp we implement all functionality like create, update, delete and for reading backend data we uses firebase.
- Tech: React.Js, Javascript, CSS3, HTML5, firebase

### Quiz-App

- I build a quiz application where you can solve the given question and view the score whatever you gain it demonstrate my broad skill set and commitment to delivering comprehensive solutions.
- Tech: React.Js, Javascript, CSS3, HTML5

### Text-Editor

- I build a text-editor system that gives you all functionality of text and it demonstrate my broad skill set and commitment to delivering comprehensive solutions.
- Tech: React.Js, Javascript, CSS3, HTML5

## Certification

---
