

EDUCATION

B.TECH - Shri Ramdeo Baba College of Engineering and Management

Relevant Coursework: Networks, Object-Oriented Programming, Data Structures and Algorithms, Database, Software Engineering.

SKILLS

- **Client Side:** HTML, CSS, TypeScript, JavaScript, React.js
- **Server Side:** Node.js, Express.js, Java
- **Databases:** MySQL, MongoDB, mongoose, Sequelize, ORM, Redis
- **Tools & Technologies:** CI/CD pipeline, AWS, Docker, Jira, NPM, postman
- **Principles & Practices:** OOP (Object-Oriented Programming), Design Patterns, MVC Architecture, CLI, System Design
- **APIs and Data handling:** API Development, RESTful Services, GraphQL

PROJECTS and EXPERIENCE

Backend Developer | Project: Bolnet

Literacico.org | Feb 2024 – Aug 2024

- Developed Bolnet, a cutting-edge shopping platform using Node.js, Express.js, and Sequelize ORM, ensuring fast, scalable, and secure online retail experiences.
- Implemented real-time features with Socket.io and integrated webhooks for instant event notifications, enhancing user interaction and system synchronization.
- Developed data-driven SEO initiatives, increasing website traffic by 25% and enhancing online visibility.

Backend Developer | Project: UltraaBook

Janbask LLC | Oct 2022 – Feb 2024

- Developed an application similar to Zoho using Node.js, Express.js, and MySQL for robust performance and data management.
- Implemented Docker for containerization, ensuring consistent development and deployment across various environments.
- Managed version control and collaboration through GitHub, optimizing the development workflow.

Backend Developer | Internship

Riser Techub Pvt. | May 2022 – Oct 2022

- Developed JBP Core, a Salesforce-like platform, using Node.js and Express.js for a scalable backend architecture.
- Implemented Docker for containerization, ensuring consistent development and deployment environments.
- Utilized MongoDB for flexible and efficient data management, integrating with AWS for scalable infrastructure and high availability.
- Integrated Socket.io for real-time communication, enhancing user interactions and system responsiveness.

CERTIFICATIONS

- **MERN Stack Developer**
- FullStack Developer By Udemy
- JavaScript by Hackerranks
- MySQL by LinkedIn
