Summary

Highly driven Full Stack Developer with 1.5+ years of experience in MERN stack and Next.js. Committed to enhancing proficiency in frontend and backend technologies. Skilled in crafting inventive solutions that meet client and end-user needs. Known for delivering exemplary work that surpasses expectations.

Experience

Full Stack Developer   **09/2022 to 02/2024**
Flynaut SaaS Private Limited   **Pune, Maharashtra India**

- As a software engineer at Flynaut SaaS Private Limited, I've been deeply involved in the development and upkeep of web applications utilizing the MERN stack.

Full Stack Developer   **02/2023 to 03/2024**
Nuk 9 Information Security Auditors LLP   **Dahisar East, Mumbai India**

- With 1.1 years of experience as a Software Engineer at NUK 9 Information Security Auditors LLP, I have developed and managed web applications using the MERN stack, focusing on real-time features and third-party integrations like Firebase. My expertise spans front-end and back-end development, with strong skills in problem-solving and debugging.

Full Stack Developer   **08/2022 to Current**
Freelancing

- Design and develop complete web applications from scratch using MERN, delivering responsive and high-performance solutions.
- Build and integrate custom RESTful APIs to enable seamless communication between the frontend and backend, ensuring efficient data management.
- Implement real-time functionalities, such as live chat, notifications, and updates, to enhance user engagement and experience.
- Integrate various third-party services, including Firebase, payment gateways, and authentication systems, to extend the functionality of web applications.

Projects

Data Visualization Web Application | Web App | MERN Stack

- Built a data visualization web application to analyze and visualize e-commerce data from a Shopify store. Integrated various charts to represent sales, customer behavior, and geographical distribution.
- **Key Features**: Total sales over time, sales growth rate, new customer tracking, repeat customer analysis, geographical distribution, customer lifetime value by cohorts.
- **Tech Skills**: React.js, recharts, Node.js, Express.js, MongoDB.
- **Link**: **https://ecom-chart-dashboard.vercel.app/**

TFM - The Fuel Media | Web App | Freelance Project

- This is a digital marketing website with awesome UI
- **Key Features**: Testimonial showcase, detailed service overview, easy contact form, comprehensive FAQ section, all presented with an engaging and modern user interface.

- **Tech Skills**: React, Redux, React-Router-Dom, JSON
- **Link: https://www.thefuelmedia.co/**

Career and Skills - a learning platform | Web App | MERN Stack
- This is a versatile platform featuring both User and Admin panels.
- **Key Features: User Panel:** - Enroll in courses,Track own progress **Admin Panel:** - Approve, reject, or block users, add new courses etc.
- **Tech Skills:** React, React-Router-Dom, Material UI, Node Js, Express Js, MongoDB.
- **Link**: **https://cpd-imvikaskashyap.vercel.app/login**

User Management Application | Web App | MERN Stack
- Developed a comprehensive user management application with advanced features such as filtering, searching, and pagination. Users can create and view teams based on unique criteria.
- **Key Features**: CRUD operations, user filtering by Domain, Gender, and Availability, Dynamic search, team creation with unique user selection, responsive design.
- **Tech Skills**: React.js, Redux Toolkit, Node.js, Express.js, MongoDB, Mongoose, Tailwind CSS.
- **Link**: **https://frontend-heliverse.vercel.app/**

Interactive Training Module | Web App | MERN Stack,
- Created an interactive training module for employees to view and interact with video content in a specified sequence. Included features like progress tracking and resume playback.
- **Key Features**: Sequential video playback with no fast-forwarding or skipping, resume from the last stop, progress tracking displayed as a percentage, navigation to previously watched videos, and a responsive user interface.
- **Tech Skills**: React.js, HTML5 Video.js, React Router, Node.js, Express.js, Chakra Ui.
- **Link**: **https://video-playback-puce.vercel.app/**

Awesome Text Editor | Web App
- This is a Text Editor webapp with editing functionality.
- **Key Features**: Convert text to uppercase or lowercase, clear text, copy text, remove extra spaces, count words and letters, preview text, and track reading frequency.
- **Tech Skills**: React Js, React-Router-Dom.
- **Link**: : **https://textifybyvk.netlify.app/**

Learning Management System | Web App | In Progress
- A learning management system (LMS) similar to Udemy, currently in development. The platform allows users to create, manage, and enroll in online courses with a seamless user experience.
- **Key Features**: Total sales over time, sales growth rate, new customer tracking, repeat customer analysis, geographical distribution, customer lifetime value by cohorts.
- **Tech Skills**: Next.js, React.js, Node.js, Express.js, MongoDB

91Arena | Web App | In Progress
- A smartphone specification website with Admin panel.
- **Key Features**: Search smartphones by newly added models, brand, specifications, name, and price range; read informative blogs; compare different smartphones, and view recommended devices.
- **Tech Skills**: NextJs, Node js, MongoDB, Express Js, MUI etc
- **Link**: **https://91-arena.vercel.app/**

Ecommerce website | Web App

- This e-commerce website includes a comprehensive product page, a cart page for managing items, a checkout page for processing purchases, and a detailed product information page.
- **Key Features**: This website have Authentication, Product Listing, Filter products, Checkout page, Cart Page etc.
- **Tech Skills**: HTML, CSS, JavaScript, Json-Server, DOM manipulation.
- **Link**: https://ecom-front-end.vercel.app/login.html

The Busy Toddler Club | Web App | Freelance Project
- This is a kids' play items booking webapp.
- **Key Features**: Choose and book playing items, Fill out a "Contact Us" form (Admin will be notified via Gmail, and user data will be saved in Google Sheets) - Use the cart for easy checkout etc.
- **Tech Skills**: React, Redux, React-Router-Dom, JSON etc.
- **Link**: https://busy-toddler-2.vercel.app/

School adding and listing | Web App
- This website enables users to add new schools to a database and view a detailed list of existing schools.
- **Key Features**: This website allows users to add new schools to a MySQL database and provides a comprehensive listing of schools for easy browsing.
- **Tech Skills**: NextJs, MySQL, API Integration.
- **Link**: https://school-management-roan-six.vercel.app/

Skills

Technical Skills
- **MERN Stack:** MongoDB, Express JS, React JS, Node JS.
- **Front-end Technologies:** React JS, Next JS, Redux, JavaScript, HTML5, CSS3, Bootstrap, Tailwind CSS, Shadcn UI, Chakra UI, Material UI etc.
- **Back-end Technologies:** Node JS, Express JS.
- **Database:** MongoDB, MySQL.
- **Web Development:** HTML5, CSS3, JavaScript, REST APIs, DOM manipulation, API Integration etc.
- **Programming Languages and DSA :** JavaScript, DSA, C++ (Basic)

Soft Skills
- Team collaboration & handling
- Secure architecture mindset
- Web flow design & performance
- Problem-solving & clean coding
- Communication & team spirit
- Flexibility & time management
- Creativity & AI proficiency
